

# IS DRUG USE AMONGST EMPLOYEES COSTING YOUR BUSINESS MONEY?

## HOW WOULD YOU RECOGNISE & RESPOND TO A DRUG PROBLEM?

Substance misuse can be a major issue in contributing to absenteeism, lateness, accidents, poor performance and lost productivity

apas provides a range of simple and cost effective courses designed to educate and advise on issues surrounding illegal drug use and potential effects within the workplace.

**Course Objectives** - To provide a basic knowledge of the most commonly misused drugs, the legality of use, the potentially harmful physical and psychological effects, and their street names.

**Course Contents** - The myths and facts surrounding commonly used drugs. How much do you really know? Presentation to staff demonstrating what drugs actually look like – using a 'drug box'. The physical and psychological effects of commonly used drugs. The legality of commonly used drugs. Dealing with a problem in the workplace.

**Each course is individually tailored** to the organisations needs and can be adapted to any policies the company may have. Typical course duration – 3.5 hours.
